5 修补不同类型油漆时，确认暴露部位和内部区域等的油漆兼容性

如修补用的油漆与旧油漆不是同样类型时，要确认两种油漆是否兼容。修补之前必须做表面处理。

5 Compatibility between different type of paints in maintenance for exposed and interior areas

When a different type of paint from the present coating is used for overcoating, check the compatibility between coats and determine the coating specification. Surface preparation is necessary before repair.
